

Gemini (Google)

Click the
Activity button
(looks like a
clock with a
counter-
clockwise
arrow) left.

The screenshot shows the Gemini app interface. At the top, there is a search bar with the text "Gemini". Below the search bar, there are several menu items: "New chat", "My stuff", "Gems", and "Gemini Apps Activity is off" with a link "Turn it on here". The "Activity" button, which is a clock icon with a counter-clockwise arrow, is highlighted with a red rectangular box. Below the "Activity" button, there is a list of settings and features: "Personal context", "Connected Apps", "Your public links", "Theme", "View subscriptions", "NotebookLM", "Send feedback", and "Help". At the bottom of the screen, there is a "Settings & help" button. On the right side of the screen, there is a chat area with the text "I'm ready to help you to life & more." and a search bar with the text "Ask Gemini 3". Below the search bar, there is a "Tools" button and two buttons: "Create image" and "Create music".

Gemini (Google)

Click Gemini
Apps Activity.

Gemini Apps Activity

Keep activity

Keeping your activity lets you pick up chats where you left off anytime and helps improve Google services, including AI models. When this setting is off, Google still saves chats for 72 hours to respond to you and help keep Gemini safe.

Off

Off since March 11, 2026

Deleting activity older than 18 months

Improve Google services with your audio and Gemini Live recordings.

Your past chats with Gemini

Gemini learns from your chats to understand more about you and your goals. *Coming soon to Live.*

[Manage and delete](#) your past chats anytime. [Learn more](#)

Your instructions for Gemini

Customize how Gemini responds to you by giving it instructions. [Learn more](#)

Examples:

- Start responses with a TL;DR summary
- Use bullet points for long paragraphs

+ Add

This prevents Gemini from using past conversations to personalize responses and limits stored context tied to your account, giving you more control over your privacy.

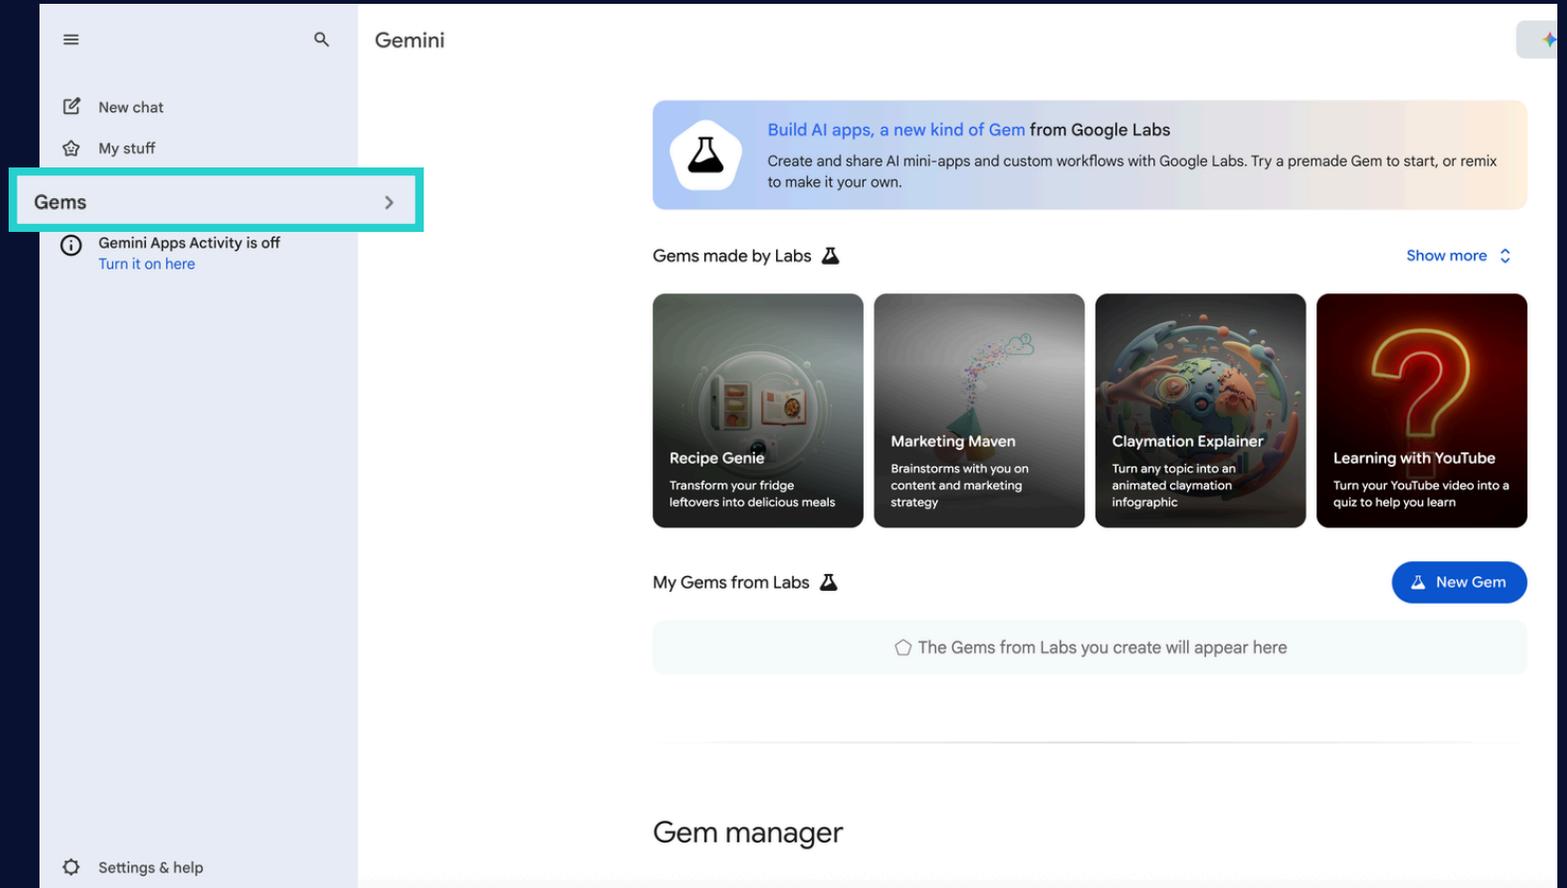

What Are Gems in Gemini?

Gems are custom AI assistants you can create in Gemini.

They let you give Gemini specific instructions so it can help with certain tasks more efficiently.

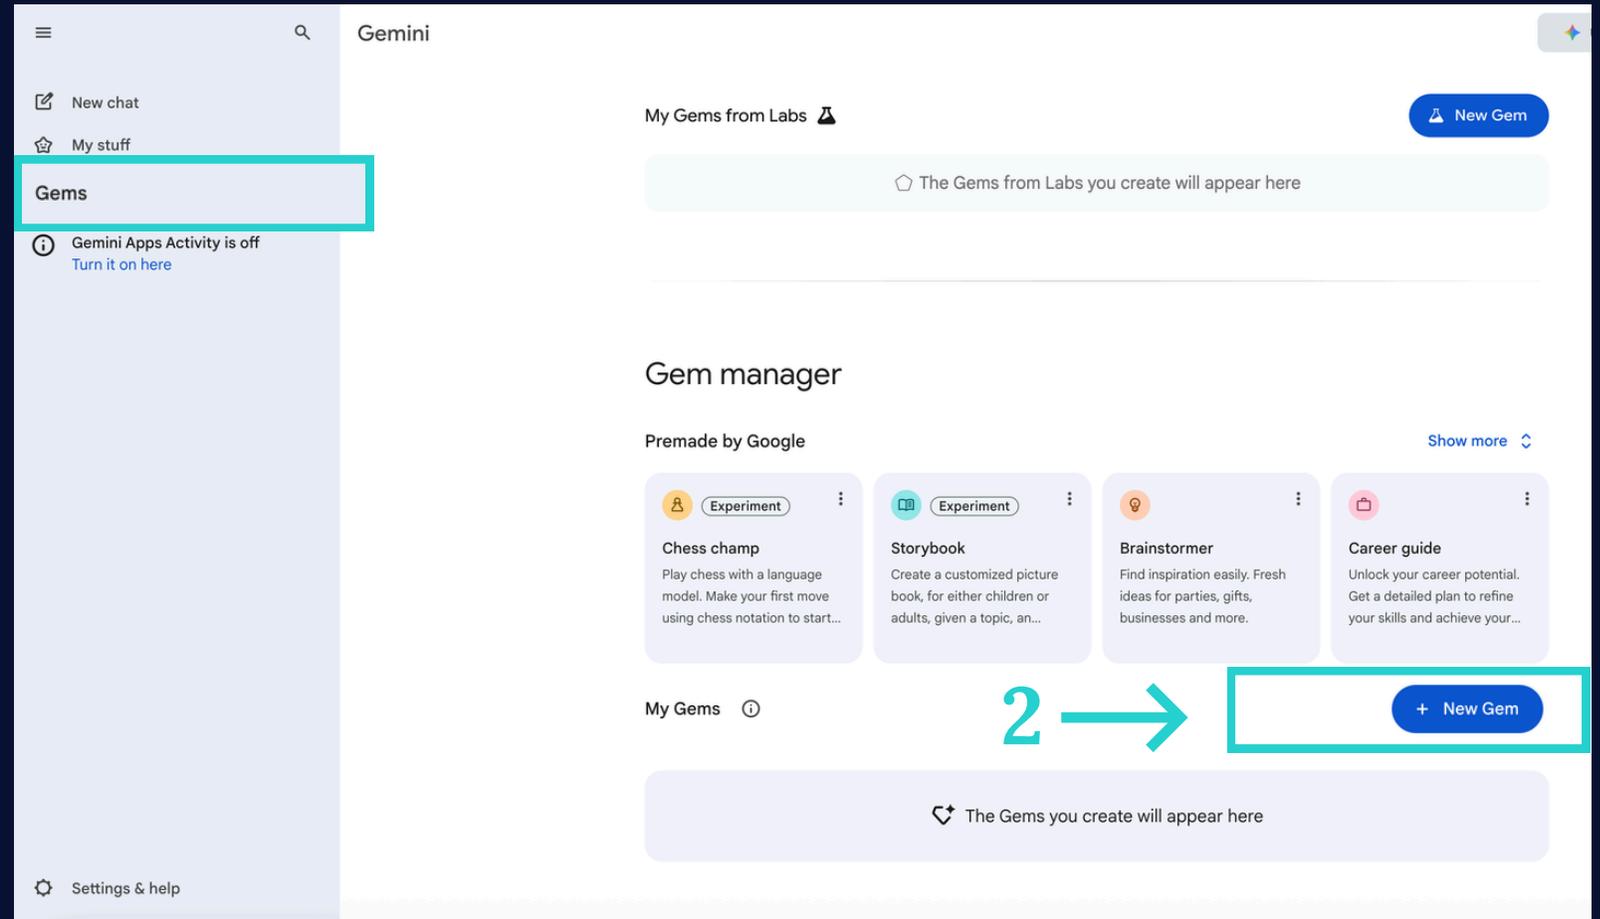

Examples:

- Writing emails
- Social media content
- Research summaries
- Business or workflow tasks

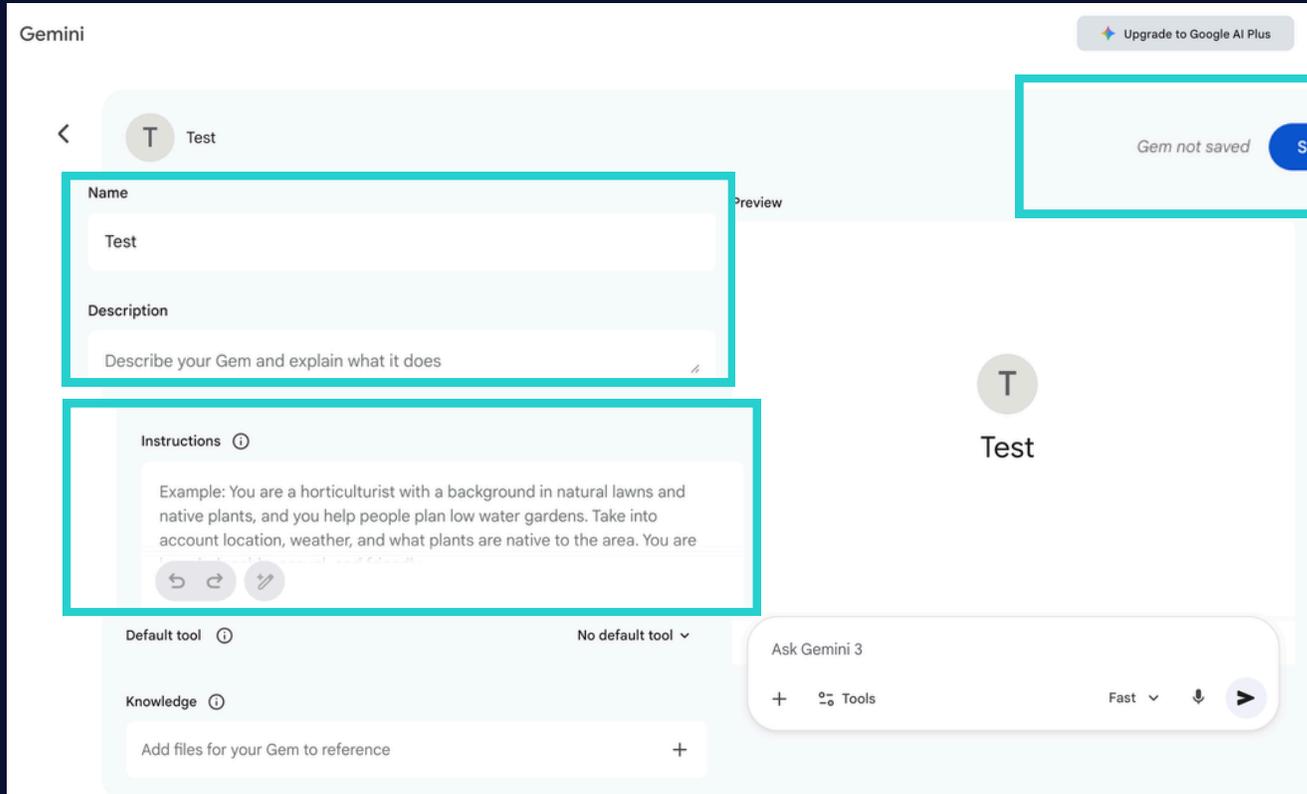

How to Create a Gem

1. Go to Gems in the sidebar.
2. Click Create a 'New Gem'.

3 →

4 →

← 5

3. Give it a name and description.
4. Add instructions for what you want the Gem to do.
5. Click Save.

How to Use a Gem?

Steps:

1. Open Gemini.
2. Choose the Gem you created.
3. Start your prompt.
4. Gemini will follow the instructions you set for that Gem.

Using Gems helps automate repetitive tasks and keeps responses consistent based on the instructions you provide.
