Go to your  
X (Twitter)  
Settings.

# Grok (xAI)

Click Privacy  
and Safety. Click  
Grok & Third-  
party  
Collaborators.

The image shows a screenshot of the X account settings page. The 'Privacy and safety' option in the left-hand menu is highlighted with a red border and a red arrow points to it from the left. A red arrow also points from the 'Grok & Third-party Collaborators' option at the bottom of the settings list to the right. The settings list includes:

- Security and account access
- Privacy and safety**
- Notifications
- Accessibility, display, and languages
- Additional resources
- Help Center

The right-hand pane shows the following settings:

- Content you see: Decide what you see on X based on your preferences like Topics and interests
- Mute and block: Manage the accounts, words, and notifications that you've muted or blocked.
- Chat: Manage who can message you directly.
- Spaces: Manage who can see your Spaces listening activity
- Discoverability and contacts: Control your discoverability settings and manage contacts you've imported.
- About your account: Manage the location associated with your account

**Data sharing and personalization**

- Ads preferences: Manage your ads experience on X.
- Inferred identity: Allow X to personalize your experience with your inferred activity, e.g. activity on devices you haven't used to log in to X.
- Data sharing with business partners: Allow sharing of additional information with X's business partners.
- Location information: Manage the location information X uses to personalize your experience.
- Grok & Third-party Collaborators**: Allow your public data as well as your interactions, inputs, and results with Grok and xAI to be used for training and fine-tuning
